Attachments: DIB0001

Richard - See the City of Denver's e:mail below. I'm thinking that we would want basic information about their project - location of sewer line, depth, along with materials handling plan, disposal, schedule, etc. I also think that we may want to ask them to collect samples of material that they excavate even if it goes back in the hole. Let me know if you think its OK for us to make these requests. Thanks

Subject: 40th Street Storm Sewer

Good afternoon, Paula! I believe you know about the upcoming project where Denver will be replacing a storm sewer that will go through Pepsi and the Coliseum parking lot and disturb soils within VB/I-70 OU2. Does EPA need any advanced notice or information prior to digging? Thanks!!
